"Because sometimes the road to excellence requires a helping hand."

THE PATHWAY HOME

The Pathway Home's mission is to assist military personnel who have been deployed to Iraq and Afghanistan, but are having difficulty transitioning to life after war because of the debilitating effects of Post Traumatic Stress (PTS), Traumatic Brain Injury (TBI) and other post-combat mental health challenges.

Since opening its doors in 2008, The Pathway Home has improved the quality of life for more than 400 returning service members and 170 families who are coping with the effects of PTS, TBI, or other combat-related mental health challenges.

The Pathway Home does *not* receive financial support from the Federal or state government, nor does it receive funding from the Department of Veterans Affairs. Rather, we rely on the generosity and support of private individuals, companies, and foundations to provide the lifesaving care that these heroes need and deserve.
