

2017 Walker Cup

Volunteer Opportunities

Marshals: Marshals will assist with direction and control of the spectators, so that the spectators can enjoy a competition that is safe and enjoyable for the players and spectators, fair and competitive for the players, and does minimal damage to the golf course. Marshals will be expected to work three of the four sessions of the competition, either stationed on one or more holes for the session or walking with one match. Marshals will also assist with spectator safety and comfort on the driving range and the practice putting greens. All marshals need to be able to comfortably walk 18 holes. Marshals will work in pre-determined groups of approximately ten, and can apply to work as part of such a group, such as, for example, all members of the same club.

Scoring: Volunteers are needed to follow matches carrying a portable scoreboard, follow matches while inputting scores on an electronic device, or staff status scoreboards throughout the property. Walking Scorers will be expected to work three of the four sessions of the competition. Scorers must be able to comfortably walk 18 holes.

Rakers: A volunteer (with a junior assistant) will accompany each match with a bunker rake and a green whip to rake all bunkers and clean up

sand splashed or tracked out of the bunkers. Rakers must be able to comfortably walk 18 holes.

Drivers: Volunteers will drive carts to shuttle players back and forth from the driving range to the locker rooms. Drivers will also drive disabled spectators to and among designated viewing areas on the course. Finally, drivers will pick up players, caddies and officials at the end of matches that finish on holes other than 16 and 18. Drivers must have a current valid driver's license.

On Course Hospitality: Hospitality Volunteers will greet guests, give directions and provide information, check credentials and answer questions. Some hospitality staff will be assigned to specifically assist with the guests of corporate sponsors.

Operations: Volunteers will be needed to provide general assistance with the operation of the event in a variety of ways, including assistance to the staff of the broadcast partner, to the staff of the USGA, to LACC and to the other volunteers.

Parking: Volunteers will be needed to assist with directing spectators and volunteers to parking places on the South Course. Parking Volunteers will only be asked to work two half day shifts.
